JURY DUTY SCAM

Notice to the Citizens of Volusia County:

Identity thieves are using a "Jury Duty Scam" to obtain personal information from citizens throughout Central Florida. The scammers are telephoning individuals identifying themselves as local court employees and advising these individuals they failed to report for jury duty. In many cases the scammer indicates a warrant has been issued for their arrest and requests the individual to provide confidential information such as Social Security number and date of birth for "verification" purposes.

Clerk's Office employees within the Jury Management division NEVER make such calls. In fact, initial notifications as well as follow-up notices are processed through the US Postal Service. Clerk's Office employees will, however, respond by telephone to a prospective juror's inquiry if requested.

Please avoid becoming a victim of this type of identity theft scam by simply refusing to provide the information requested by the caller.
